Statement of Amicus Curiae, Sandy Claytor

I am writing to request
that you hear the Edgewood
v. Kirby suit on behalf of the
ISD districts in Texas
with low property values
for students.

Sanger ISD has the
second highest tax rate out
of the eleven schools in Denton
County, and at \$1.25 per
time, Sanger has the second
lowest value per student
in Denton County - this is no
coincidence. As a result, our
district does not have the
funds to meet all of our
broad educational needs. In
addition, we don't have the
right equipment for art and
physical education, we also
don't have the room we
need, the classes are crowded,
and we don't have enough
teachers to help everybody
in our community. We
need more supplies to make
repairs to our building.

Statement of Amicus Curiae,
Justin Engler.

All Texas schools should get equal funding. Sanger has one of the highest tax rates in Denton County, yet funding is lower here than in many districts. Sanger schools must manage without sufficient supplies, teachers, aides, and special programs because of a shortage of money. Is the education of students in Sanger and other low property value per student schools less important than children in the districts that receive more funding? We don't think so!!!

I urge you to hear Edgewood vs. Kirby and to be fair and rule in favor of the low property value per student schools in the state of Texas.

Sincerely,
Justin Engler

P.S. I authorize an attorney selected by the Equity Center to incorporate this statement as an amicus brief on my behalf supporting Petitioners and Petitioners-Intervenors in the Edgewood case.

To Whom It May Concern:

I care about public education in Texas and the failure of the legislature and governor to support an equitable method for the distribution of state funds to public schools.

I know that the legislature and governor must support adequate funding for the mandates that it requires of public schools.

Your attention to these important issues in education is appreciated. Thank you.
